One Verizon Way
Basking Ridge, NJ 07920

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

July 16, 2026

Carrier: Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after August 28, 2026

Planned Network Change(s) will occur at the following locations in New Jersey:

Verizon Central Office	Address	CLLI
Allentown NJ EWSD Switch	5 Walker Avenue Allentown, NJ 08501	ALTWNJALDS5
Camden NJ CS2K Switch	12 N. 7th Street Camden, NJ 08102	CMDNNJCEPS0

This notice may also be viewed at

<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Allentown NJ EWSD switch are associated with CLI code ALTWNJALDS5 and will not be repeated throughout this notice.
- All references to the Camden NJ CS2K switch are associated with CLI code NBWKNJNBPS2 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Allentown NJ EWSD switch, located at 5 Walker Avenue, Allentown, NJ 08501, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Camden NJ CS2K switch, located at 12 N. 7th Street, Camden, NJ 08102. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Camden NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Allentown NJ EWSD switch will be required to reposition the codes to the Camden NJ CS2K switch.

All ASRs for the Camden NJ CS2K switch must be received no later than August 13, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Allentown NJ EWSD switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted, prior to decommissioning of the Allentown NJ EWSD switch (**on or after August 28, 2026**). This will serve to guide interconnect re-routes of traffic for the two (2) native codes currently served by the Allentown NJ EWSD switch to reflect the Camden NJ CS2K switch as the new home switch.
