

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

July 16, 2026

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Michael Childs
Associate director
Verizon Network Engineering
5055 North Point Pkwy
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after August 28, 2026.

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Mount Kisco NY 5ESS Switch	45 E. Main Street Mount Kisco, NY 10549	MTKSNYMKDS0
Pleasantville NY CS2k Switch	465 Marble Avenue Pleasantville, NY 10570	PSVLNYPVPSA

This notice may also be viewed at

<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Mount Kisco NY 5ESS switch are associated with CLLI code MTKSNYMKDS0 and will not be repeated throughout this notice.
- All references to the Pleasantville NY CS2k switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Mount Kisco NY 5ESS switch, located at 45 E. Main Street, Mount Kisco, NY 10549, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pleasantville NY CS2k switch, located at 465 Marble Avenue, Pleasantville, NY 10570. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pleasantville NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Mount Kisco NY 5ESS switch will be required to reposition the codes to the Pleasantville NY CS2k switch.

All ASRs for the Pleasantville NY CS2k switch must be received no later than August 1, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Mount Kisco NY 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Mount Kisco NY 5ESS switch (**on or after August 28, 2026**). This will serve to guide interconnect re-routes of traffic for the four (4) native codes currently served by the Mount Kisco NY 5ESS switch to reflect the Pleasantville NY CS2k switch as the new home switch.
